## ERIC COHLER DESIGN

Dubbed ‘The Mixmaster’ by industry editors, international designer, author and educator ERIC COHLER is highly acclaimed for his distinguishing ability to fuse classical and contemporary elements. Headquartered in NYC with a satellite office in Kensington, he designs spaces that look carefully composed yet are luxuriously comfortable – believing in putting “living” back into the living room. Cohler’s projects span the United States, Europe, Asia and the Caribbean. Image ©Adornomag, Photography by Keith King. Visit [www.ericcohler.com](http://www.ericcohler.com) for more information.
